BERG WAS FOUNDED BY ONE OF YOU

BERG originated on the edge of the Veluwe nature reserve in The Netherlands. There the young BERG watched cars and tractors ride in and out of the farmyard every day. He was sick of walking and cycling, and longed to have a four-wheeler. In a farm shed, he spent months working to build his dream.

One day, the time finally came. With his hair flapping in the wind and a grin from ear to ear, the young BERG rode his home-made go-kart out of the farmyard. The children in the village watched him jealously. They so wanted to change places with him. That made an unforgettable impression on him. He realised that a young BERG exists in everyone. And that's why you can now buy your very own BERG.

WELCOME

TO OUR WORLD

We are BERG. We make it possible for you to jump, ride and fly through the open air. We seek to push to the limits of our happiness, completely empty your mind now and again. Be active in the open air, relax through effort and have fun on your own or together with friends.

You can stretch your limits with a BERG, you can do so much more than you think. With a BERG, you push boundaries. You can do more than you think. You want to go faster, higher, and better. Your BERG is always there for you.

Feel confident even when the road is bumpy. Feel at home the moment you step outside. Your BERG grows with you and never lets you down. For a lifetime.

Welcome to the world of BERG. It is now yours.

Safe

You want carefree enjoyment of your BERG, so we pay a great deal of attention to the safety of our products. All materials are of the highest quality, all products are ergonomically designed and are extensively tested so you can enjoy years and years of fun with your BERG.

Responsible

We have the world on loan from our children, at BERG we do our part with sustainable and timeless products that last for generations. When you buy a BERG, you know it was made with consideration for people and the environment.

Design

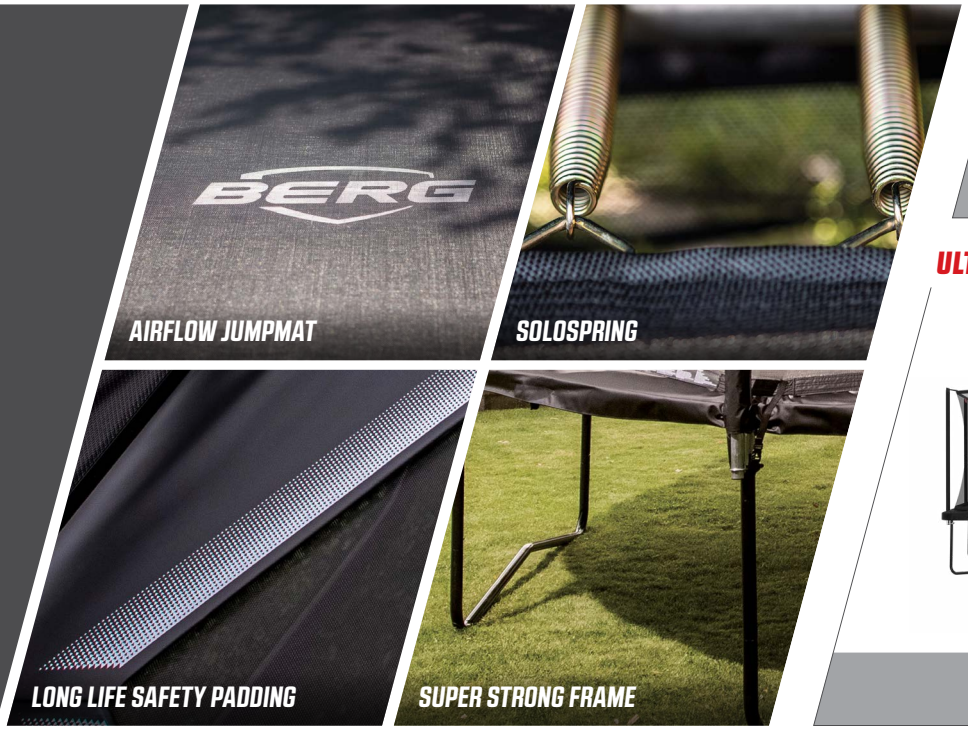

Functionality is the most essential thing about a BERG, everything must always work well but looks are also important. That's why our designers work hard every day towards functional and innovative design, so your BERG not only works wonderfully well, but also looks great and is instantly recognisable.

IT'S YOURS NOW

BERG PRO BOUNCER

For the optimal jumping experience, we also offer the Pro Bouncer SPORTS trampolines. On these trampolines you can train at the highest level, and all that just in your own garden.

1. Equipped with the largest perfect jump surface due to TwinSpring Pro springs.
2. Fantastic and high jumps on the BERG AirFlow Pro jump mat.
3. The longest lifespan due to the UV-resistant, extra-thick and strong PVC padding.
4. The super-sturdy frame ensures even more safety with the highest jumps. The frame of the Regular (on legs) is extra high.
5. The Pro Bouncer SPORTS trampoline on legs is fitted with a Safety Net Deluxe XL as standard, the Pro Bouncer FlatGround is available with or without a safety net.

XL FRAME BFR

All large BERG Go-karts have the BFR system. BFR stands for:

Brake;
Freewheel;
Reverse.

The BFR system means you can use the pedals to brake, but also immediately reverse after stopping. In the meantime, the freewheeling lets the pedals stay still while the wheels continue to spin. This combination of techniques makes sure you can always ride safely on your go-kart.

XL FRAME BFR-3

Next to the BFR, BERG offers a frame with BFR-3. The initials for BFR are the same, only now you get a nice extra: three gears!

Three speeds on your go-kart supply optimum comfort and make sure you arrive faster at your destination.

XXL FRAME BFR

Thanks to the BERG XXL Frame BFR, go-karting for taller people is even more fun! The XXL frame is suitable for children from 1.25 cm tall, but also for people taller than 1.90 metres, that means for adults too! The XXL Frame BFR has the standard BFR system, but the frame is reinforced and lengthened.

The big difference is that the XXL Frame has two extra seat positions at the back of the frame, so that there are eight different positions instead of six. This ensures that taller people can sit better and more comfortably on the go-kart.

XXL FRAME E-BFR

The E-BFR Frame is a frame for children of 6 years and older, the E-BFR frame is electrically supported: the harder you pedal, the more support the motor gives. The extra large frame and two extra seat positions makes the E-Go Kart suitable for both children and adults.
Features of the E-BFR frame: includes display screen with speedometer, odometer and battery capacity and a USB connection. The E-BFR frame also has a 24V/240Wh removable battery and a 250W middle motor with torque sensor.
Good for at least 6-8 hours of cycling fun (under ideal circumstances). Includes battery charger! The XXL-frame has two extra seat positions.

XXL FRAME E-BFR-3

The E-BFR-3 frame offers the same pedal support as the E-BFR, but this frame has 3 gears to make it even easier to get going. With the E-BFR-3 gearing, getting going is even faster and climbing hills is much easier. As well as switching gears, the E-Motor also helps make a faster get-away. The same goes for the E-BFR as for the E-BFR-3: the harder you pedal, the more support the E-Motor provides. The E-Go Kart has a 250W E-Motor that provides pedal support. There are 4 levels of support: ECO, TOUR, SPORT and TURBO. Thanks to the extra large frame and the two additional seat positions, the go-kart is suitable for extra-tall adults.
